G Mouse

Packing List
Standard Package
- 1 x GM-103 GPS receiver
- 1 x GM-103 quick installation guide

Optional cable
- GPS Data cable: PS/2 to USB
  (GPS Data cable can be used for data transfer between GM-103 and Notebook)
- GPS Y-cable: PS/2 to car charger adaptor and PDA connector.
  (GPS Y-type cable connects GM-103 to PDA & car charger for GPS data transfer and power supply).

Setting Up
A. Connect to Notebook
1. Please select GPS data cable. In the package, there is a user's guide CD for Microsoft Windows 98SE, Windows ME, Windows 2000 and Windows XP.
2. Insert user's guide CD to your CD-ROM. Click "Install driver" button in the Startup menu to install USB bridge driver.
3. Hook up USB connector of GPS data cable to USB jack of your Notebook.
4. Connect PS/2 male connector of GPS data cable to PS/2 female connector of GM-103.
5. Run your navigation application.

B. Connect to PDA
1. Please select GPS Y-cable based on your PDA model.
2. Connect PS/2 male connector of GPS Y-cable to PS/2 female connector of GM-103.
3. Connect PDA connector of GPS Y-cable to your PDA.
4. Connect car charger to your cigar lighter socket to supply power to GM-103 and PDA.
5. Run your navigation application.
